DEUTSCHE BANK — CAPPFINITY

TOUTES LES QUESTIONS — RÈGLE À FIGER

Becoming part of the team (18Q sliders + ranking) + Tackling 17Q + Your impact 13Q + Cognitive 36Q
Chaque ranking 1-5 avec mots-clés STRONGLY / AGREE / MIDDLE + red flags

Comment lire ce PDF pendant le test : Chaque question Capp est un **ranking 1 à 5** par drag & drop (1 = most likely, 5 = least likely). Le pattern est TOUJOURS : **1 STRONGLY pro-DB** → **2 AGREE pro-DB** → **3 MIDDLE both views** → **4 AGREE anti-DB** → **5 STRONGLY anti-DB**. Repère les mots-clés en 10 sec, classe sans tout lire. Ce PDF fige tes 4 rankings validés + la règle générale.

Q1 — CHECKING — Rigour (ton screen 18/18)

Énoncé : *It's common for teams to discuss how processes are working, such as the checking of each other's work. Some colleagues may believe that checking is a waste of time... others may believe that it is vital to check everything for errors and is always worth the time. What do you think?*

Consigne : By dragging and dropping, rank 1 (most likely to think) to 5 (least likely)

RANG À FIGER	LETTRE	TEXTE	MOTS-CLÉS
	E	You **strongly agree it is vital to check everything**. You **always** check... **comes naturally**... you know the **impact even small mistakes** can have	**strongly + vital + always + naturally + impact**
2	**B**	You **agree everything should be checked**. You **do not mind** checking... **worth spending time**... **peace of mind**	agree + worth + peace of mind
3	**C**	You **can see merits of both views**. **If important then check**... **However if you can get away with few errors and be more efficient then skip**	both views + If...However...
4	**D**	You agree checking is **not efficient**... **pragmatic**... **a lot of the time a few errors do not really matter**	pragmatic + not efficient
5	**A**	You **strongly agree checking is waste of time**... **better to produce more with acceptable errors**... **does not need checking**	strongly + waste + acceptable errors

Règle à figer : 1E > 2B > 3C > 4D > 5A — Ordre décroissant de rigueur. **Red flag :** Mettre A ou D en 1/2 = **low rigour / risk** → rejet IB. **À garder car cohérent avec tes sliders** 'Spotting errors I find easy' + 'naturally check myself'.

Q2 — COLLABORATION — Teamwork

Énoncé : *After a couple of weeks... If your manager gives you the option to work on either a project requiring significant collaboration or one that you would primarily be completing by yourself. What do you do?*

RANG À FIGER	LETTRE	TEXTE	MOTS-CLÉS
1	**E**	You tell your manager you **want collaboration**. You've **always enjoyed working collaboratively**, so this is your **natural preference**	strongly + always enjoyed + natural preference
2	**C**	You would **prefer collaboration**. You prefer to work with others because you know it **tends to be effective**	prefer + tends to be effective
3	**B**	You **don't mind working on either**. You see **benefits of both** working alone and with others	don't mind + benefits both
4	**A**	You would **prefer to work alone** when possible because **other people can slow you down**	prefer alone + slow you down
5	**D**	You tell your manager you **want to work by yourself**. You **enjoy working alone** and feel you are **more productive this way**	enjoy alone + more productive

Règle à figer : 1E > 2C > 3B > 4A > 5D — E (naturel) > C (efficace) est subtil : DB préfère la motivation intrinsèque. **Red flag :** A/D en 1/2 = 'others slow you down' → anti-collaborative. **Cohérent avec** tes sliders 'supporting others / team worker / working closely'.

Q3 — CHALLENGING PROJECT — Ambition / Résilience

Énoncé : *We strive to create project opportunities that will be fantastic from a career perspective... If your manager were to propose a particularly challenging project, what would you do?*

RANG À FIGER	LETTRE	TEXTE	MOTS-CLÉS
1	**A**	You would **immediately accept and want to get to work straight away**... **whatever comes your way you can get through**... you **learn from setbacks, enjoy challenge and pressure**	immediately + whatever + learn + enjoy challenge

2	**E**	You would **want to accept** as you **enjoy opportunities to step outside comfort zone**. You would **seek advice from colleagues straight away**	want to accept + outside comfort + seek advice
3	**D**	You would explain you **feel ready but enquire support**... **minimise risk and pressure if possible**	feel ready + enquire support + minimise risk
4	**C**	You would **ask manager for their views** — if they felt you were ready then you would be happy	ask manager views + if they felt ready
5	**B**	You would explain honestly... you would be **keen to perform at best and develop further in existing projects** in medium term	keen to stay + develop further existing

Règle à figer : 1A > 2E > 3D > 4C > 5B — A = le plus ambitieux/résilient. **Red flag :** B en 1 = tu évites le challenge → incohérent avec tes sliders 'incredibly challenging goals + makes me energised sous pression'. Copilot a raison : B en 1 casserait ta cohérence ambitieux.

Q4 — COMPLEX PROJECT NO EXPERIENCE — Approach

Énoncé : *In your first month it is anticipated you might support complex projects, in areas you have no experience in. You may feel unsure how to approach these projects. What approach would you take?*

RANG À FIGER	LETTRE	TEXTE	MOTS-CLÉS
1	**C**	You would **reach out across the organisation and harness collective expertise**. The way to achieve results in a new area like this is **through collaboration**	reach out across + harness collective + through collaboration
2	**D**	You would **speak with immediate colleagues and share objectives**. You **prefer working with others if possible**	immediate colleagues + prefer working with others
3	**E**	You would **ask your manager for advice**. You are **happy to collaborate or work independently**	ask manager + happy either
4	**B**	You would **start out working independently and reach out if get stuck**. It is **preferable to operate independently if you can**	start independently + if stuck + preferable independent
5	**A**	You would **enjoy picking up new challenges independently**. You would **immediately immerse in independent research** rather than taking time from others	enjoy independently + immerse + rather than others

Règle à figer : 1C > 2D > 3E > 4B > 5A — Du plus collaboratif (across organisation) au plus solitaire (independent research). **Red flag :** A en 1 = lone wolf sur un sujet où tu n'as pas d'expérience → risque. C'est cohérent avec ta règle sliders 'reach out to others'.

RÈGLE GÉNÉRALE À FIGER POUR TOUS LES RANKING

1) Repère les 2 STRONGLY : pro-DB (vital/always/naturally/impact) → 1 ; anti-DB (waste/acceptable errors) → 5
2) Repère le MIDDLE : 'can see merits of both / benefits of both / happy to collaborate or work independently / don't mind either' → 3
3) Les 2 AGREE restants : pro-DB léger → 2 ; anti-DB léger → 4
4) Vérifie cohérence globale : si tu es 'team worker / supporting others / want to know why / challenging goals' partout, ne mets pas 'prefer to work alone because others slow you down' en 1 sur une seule question.

Tes 4 rankings sont parfaits et cohérents entre eux. Fige-les tel quel pour *Tackling your first project 17Q* et *Your impact 13Q* : même mots-clés. Tu as validé Becoming 18/18, les 2 tuiles suivantes (0/17 ■ 0/13) se déverrouilleront après batch.
